Based on \$5.00/bag market value

Envita is a nitrogen fixing solution that changes the nitrogen on your farm. Envita can be used for in-furrow or foliar application. Envita colonizes and lives in the plant (both in above and below ground tissue) to enable nitrogen fixation throughout the plant.

For additional plot details, contact your local YMS representative or email [info@yieldmastersolutions.com](mailto:info@yieldmastersolutions.com).
